Experience

Full Stack Developer at Seald (full time) – October 2018 – Today

Contributions to the development of the company's internal applications (backend and mostly frontend). Complete development of Seald's website (seald.io), as well as the administration panel (front end) available for customers.

Full Stack Developer at My Edition Company (intern) – March 2018 – September 2018

Design of a web application to register the driving test (theory test) (La Poste). Optimization of projects in progress (internal application in React.js), back-end and front-end side.

Full Stack Developer at CRMCurve (intern) – April 2017 – August 2017

Build an application web SAAS allowing to create and edit an email without having knowledge in HTML code (Javascript / API REST / PHP). I worked alone on this project.

Product Expert / Trusted Flaggers Google/YouTube – April 2016 - Today

Volunteer to help people about YouTube & Chrome products (+20 000 answers & +1000 best answers). I'm also the first Trusted Flagger on YouTube (French market), I contribute to the safety and security of the YouTube platform. In addition to that, I created a Chrome extension (PE Center) allowing to be more productive in our work.
